

Product Description

VSP Series: Interchangeable with 1/2" VSA Series nipple.

1. Body Size: 1/2"
2. Valve: Poppet Type
3. Body materials: Zinc-plated carbon steel body
4. Seals materials: Standard Nitrile (Buna-N)
5. Working temperature: -20° C + 100° C. Others on request
6. Back-up Ring: Teflon
7. Threads available: BSPP female threads.

Interchange Standard Parker 2000 series, Faster PV, Aeroquip FD 72, Dnp PPV, Stucchi IRSV.

Features

1. Poppet valves are mated with a solid metal perch that maintains valve alignment and prevents flow checking.
2. Both the coupler' sleeve and the nipple's body are hardened to make the VSP series couplings resistant to damage from brinelling and mechanical shock.
3. The durable-ball-locking mechanism ensures a reliable connection every time.
4. VSP series couplings interchange with couplings meeting ISO 7241-1, Series A.

Applications

Versatile VSP series couplings are used in a wide range of hydraulic applications including construction equipment, manufacturing machinery, and in-plant systems. They can be found anywhere the fluid transfer lines need to be connected and disconnected for operation or maintenance of equipment.
