

***HYDRAULIC
QUICK COUPLINGS***

VINCKE

The **hydraulic quick** connector is a component which allows a fast and efficient connection to the fluid line powering tools and accessories. Hydraulic quick release couplings bring efficiency, productivity and safety in hydraulic systems.

Vincke comprises a product range in constant expansion and our couplings are synonymous with quality and performance.

TECHNICAL DATA

Standard:	ISO 7241 A
Occlusion:	poppet
Locking:	radial balls
Material:	steel
Finishing:	Zinc plated
Threads:	BSPP
Standard seals:	NBR
Working temperature:	-25° C + 100° C
Optional seals:	FKM - EPDM
Workings pressure:	160-315 bar
Connection under residual pressure:	not allowed

Applications:

Versatile VSA series couplings are used in wide range of hydraulic applications including construction equipment, manufacturing machinery, and in-plant systems.

They can be found anywhere the fluid transfer lines need to be connected and disconnected for operation or electronics and automotive industry.

TECHNICAL DATA

Standard:	ISO 7241 A
Sleeve	double acting
Occlusion:	poppet
Locking:	radial balls
Material:	steel
Finishing:	Zinc plated
Threads:	BSPP
Standard seals:	NBR
Working temperature:	-25° C + 100° C
Optional seals:	FKM
Workings pressure:	250 bar
Connection under residual pressure:	not allowed

Applications:

Versatile VSM series couplings are used in a wide range of hydraulic applications including construction equipment, manufacturing machinery, and in-plant systems.

They can be found anywhere the fluid transfer lines need to be connected and disconnected for operation or maintenance of equipment.

ACCESORIES

For couplings	VSA, VSA-PC.
Body Size:	1/4", 3/8", 1/2", 3/4", 1".
Body materials:	PVC

PVC with diferents colours. Red, Blue, Yellow.
Others colors on request.

Applications:

Protective caps are always recommended to protect the couplings from damage, dirt inclusion, and will increase the product life.

This is particularly important in agriculture applications where exoisyreti wather and aggregate materials are common.
